

IMPORTANT ISSUE THAT AFFECTS ALL WOODMONT RESIDENTS AND CITY OF TAMARAC RESIDENTS

Contribution for Legal Representation

The Save Woodmont, Inc. has retained the law firm of Becker & Poliakoff, P.A. to represent us before the Tamarac City Commission. The next meeting is on April 14, 2010 at 6:00p.m., and to attend any other future potential hearings that may arise. The developer has legal representation, so we need legal assistance.

Save Woodmont needs your contribution as soon as possible. Send any amount that you can, fill out the enclosed questionnaire and return it along with your check to:

Save Woodmont, Inc.
c/o Lee Viverette, President
7924 N.W. 83rd Street
Tamarac, FL 33321

We are requesting that golf course residents contribute \$250 and non-golf course residents contribute \$100. At Le Châteaux we have had one member contribute \$2,000 and several at \$1,000 and a few at \$500. If you can contribute more than the requested amount it would be greatly appreciated.

It is **imperative** to **e-mail** the following elected officials to voice your opposition to any re-zoning for the Woodmont Pines Course, Furthermore, we need to storm city hall at 5:00p.m. on April 14, 2010 and wear our red t-shirts that will be distributed by your block or area captain. To help save the Pines Golf course please volunteer if you can.

Mr. Poliakoff stated very clearly that we have our work cut-out for us. If you do nothing City Hall will change your quality of life forever. People, we need to get active and show our elected officials that we **DO NOT WANT ANY REZONING!!!**

The e-mail addresses are as follows:

Mayor Flansbaum-Talabisco
Vice Mayor Dressler
Commissioner Glasser
Commissioner Atkins-Grad
Commissioner Bushnell

If you have any questions, please call me at (954) 439-0793 or Keenan or Dee Dee Poole at (954) 597-1519.

Thank you for your cooperation for the benefit of our community.

Yes

No

Do you support the current proposal to close the Pine Golf Course in order to build homes?

Do you believe your current home value would decrease under this proposal?

If City elected officials support the views on future development on the Pines Golf course, would you support them in the next election?

Do you believe the influx of approximately 1,000 people (255 homes times an average of 4 people per home) would adversely effect traffic and crime in your community?

Do you think the city of Tamarac (Woodmont) needs another passive park that will ultimately need city tax dollars to maintain?
